

GOSPELJOY

INTERNATIONAL

2022 Annual Report

Welcome!

Dear Friends,

Imagine not being able to study or understand the core tenants of your faith simply because you cannot read? This is a problem faced by millions around the world. Gospel Joy meets this need by producing audio Bible studies for oral preference learners.

This year we worked hard to complete phase one of our audio Bible study library, support ongoing women's studies, and position ourselves to launch into targeted distribution and use for 2023.

This has only been possible because of you and your faithful support of Gospel Joy Int'l. Thank you!

Sincerely,

Emily Pohl

Executive Director, Gospel Joy Int'l

What We Do

Gospel Joy International contributes to the discipleship of the church by providing theologically rich audio Bible studies for female oral learners so that they might grow deeply in understanding God and making disciples. We work across the continent of Africa, supporting rural churches to fulfill their mission to disciple believers.

Cameroon

In 2022 we continued to partner with missionaries in the far north region of Cameroon where it is considered least reached. They are church planters who also work at the local hospital.

This year they used the audio Bible studies with a group of women who work in the hospital, opening the door for rich conversations and deepening young believers' faith.

Kenya

After partnering with various churches across Kenya over the last few years, we realized that we desperately needed to translate our studies into Kenyan Swahili in order to be more effective. In 2022 we began the process of translating and recording with the help of a Kenyan missionary. This work will be finalized in 2023 and shared amongst the local church.

Prayer in Praise Group

This year we began a bi-monthly virtual prayer meeting for the leaders of our audio Bible studies. We meet via zoom, have a short devotional, share prayer requests, and intercede for one another. This group of women have become a source of camaraderie as each person is laboring for the Gospel in difficult environments with limited support.

Picture is of a few members of the group who were able to meet in person.

Distinctives

With our experience in oral-preference cultures, we create our materials to fill a gap in the oral discipleship process. Our audio Bible studies dive deep into theological topics, expositing truths otherwise reserved for literate learners. Gospel Joy's audio Bible studies are a tool that is given to local churches and missionaries to use in their existing ministries.

Library

Gospel Joy's audio Bible Study Library has grown this year! We have recorded the Hebrews study in English, upgraded the recording studio and also established procedures to streamline recording in the future. You can listen and read samples on our website too!
